

Press release for immediate release

Brussels, January 2018

ETIM Slovensko 18th member of ETIM International

ETIM International, the global coordinating organisation for the technical product data classification, announces the membership of ETIM Slovensko as representative for Slovakia. (www.etim.sk)

Directly following Lithuania and Russia, who joined as ETIM International member last year, the Slovakian membership is again confirming the rapidly increasing interest in the Eastern region. Ryszard D'Antoni, vice-president of ETIM International and 'missionary' for expansion in the Eastern region looks ahead "I am hoping that this momentum will convince other interested countries in the region, that now is to time to organize themselves and join the ETIM success"

ETIM Slovensko is a non-profit association fully dedicated to being the standardization committee for ETIM classification in Slovakia, with the long term goal to make it the most important technical information model in the participating sectors in the Slovakian market. The association is open for membership of all interested legal entities.

"We are proud and happy that ETIM Slovensko is now officially part of the ETIM International family", says Petr Mlčák, chairman of the executive board of ETIM Slovensko. "We are convinced of the benefits that ETIM will yield for the complete supply chain in Slovakia, and invite all companies that operate within the scope of ETIM to team up with us and join our association"

About ETIM International: *The association ETIM International is a partnership of national ETIM organizations and has its official seat in Brussels. ETIM International is founded to join forces in the development, maintenance, publishing and promotion of one ETIM Technical Information Model for the classification of technical products. The power of ETIM is the collective; independent and sector wide organizing is the only way to success. The focus of ETIM International for the presence lies on the classification of electro technical products, HVAC, Sanitary and the building sector, but the association is open for entry of other related industry sectors. Current member countries are Austria, Belgium, Denmark, Finland, France, Germany, Italy, Lithuania, Netherlands, Norway, Poland, Russia, Slovakia, Spain, Sweden, Switzerland, the United States/Canada and the UK.
